

Poemas
De Sylvio
Del Valle

The first of these is the fact that the
 system is not a simple one. It is a
 complex system, and it is not
 possible to understand it without
 understanding the whole. The
 second is that the system is not
 static. It is a dynamic system,
 and it is not possible to
 understand it without
 understanding the whole. The
 third is that the system is not
 linear. It is a non-linear system,
 and it is not possible to
 understand it without
 understanding the whole. The
 fourth is that the system is not
 deterministic. It is a
 probabilistic system, and it is
 not possible to understand it
 without understanding the whole.
